## **Training Agreement**

We try to make our classes as less stressful as possible for both our clients and their dog. Prior to your scheduled training class we ask that you work your dog to release some of their excitable energy. This way your dog will be ready to focus at the beginning of their training classes. The trainer will start your dog out in each class to follow up how your dog is doing from previous training class and start new commands. Every class we will go through what your dog has been taught in prior classes to help get them get focused and to instill what they have learned. Once the trainer feels the dog understands what we are teaching, the trainer will then have the owner take over the training where they are closely worked with so they learn the proper way to teach the dog the commands that are being taught that day in class. **Please ask questions!!!!**

## **Puppy Training**

Puppy training is different from adult dog training. The world is new to your puppy. Due to puppies very short tension span we start out with half hour classes. The above training agreement still pertains to all clients. We will extend the time of the training class as your pup builds up stamina to complete an hour class. We do not believe in burning a puppy out. If at anytime you feel your pup is getting tired please bring it to the trainers attention. You know your family member best.
